Importance: High

Good Afternoon,

Attached please find a very long and detailed request of information from Moses regarding the decision to close the drug lab in Amherst and specific information on all Moses and contract positions- I anticipate it will take some time to compile this information. (Moses did send me another email apologizing for putting DMH in the memo instead of DPH which it meant.)

David if you can please be point person between DPH and Moses if anything needs to be clarified as the information is collected. Some of this will come from the lab, some from central office and some from HR.

Once it is all together we can review and determine the response to MOSES.

thank you
Marianne

"Of all tyrannies, a tyranny exercised for the good of its victims may be the most oppressive. It may be better to live under robber barons than under omnipotent moral busybodies. The robber baron's cruelty may sometimes sleep, his cupidity may at some point be satiated; but those who torment us for our own good will torment us without end, for they do so with the approval of their consciences." —C.S. Lewis
